

# Control of PPP's in Austria

**,Ceureg XVII `**

14.10.2013-15.10.2013, Budapest/Hungary

# Content

## Legal basis - control on marketing of PPP's

### Control activities on marketing

- Regulation (EC) No 882/2004
- Appropriate techniques
- Training of inspectors

### Practical Inspection

- Equipment of an inspector
- Checklist
- Sample taking
- Non-Compliance with PPP act 2011

# Legal Basis – control on marketing of PPP's

- control activities on marketing regulated in PPP Act 2011 by the Federal Office for Food Safety
- risk based annual inspection plan
- quarterly resource planning

- **Risk-based approach**

- frequency of official controls should be regular and **proportionate to the risk**, taking into account the results of the checks carried out by business operators

- **Risk based control planning ensures effectiveness of controls**

- ad-hoc controls should be carried out in case of suspicion of non-compliance

## Appropriate techniques

- routine surveillance checks and more intensive controls such as inspections, verifications, audits, sampling, testing of samples, ...
- correct implementation of those techniques requires appropriate training of the staff performing official controls

# Regular training of inspectors

- knowledge of official PPP act
- law on General Administrative Procedure
- documentation of controls (official act)
- sampling procedure
- how to deal with critical situations
  - aggressive behaviour of person
  - refusal of control
- Basics of accounting  
basics of accounting  
inspection of relevant business documents

# Practical inspection

- weekly update of the control-software
- assignment – Information for Inspectors
- completion of the equipment for the inspection

# Checklist

- Authorisation

- Assessment of Conformity - Labelling
- Registration number
- Product name
- Function (Herbicide, Repellant,.....)
- Formulation type (Soluble concentrate, Wettable powder..)
- Classification (Dangerous for the environment,....)
- Batch number

- Packaging

- undamaged and safe

- Notification on central register of distributor

# Sample-taking

## Why sampling?

- fulfilling of the annual risk-based-controllplan
- suspicion of counterfeiting
- incorrect labelling of products
- Suspicion of not permitted products

## How to take a sample ?

- two identical products (identification through batch-nr.)
- labelling and sealing (seal and official adhesive tape)
- crosscheck-Product stays at the company
- record - taking

# Non-Compliance with PPP Act 2011

## NON-CONFORM PPP > Measures

importance of infringement

field of application (professional/nonprofessional)

## Corrective actions

- Ban on the placing on the market until non-conformity is corrected
- Disposal or return to seller
- Correction of the labelling

## Temporary confiscation

- non-conformity unrepairable (no authorisation)
- ignore of corrective actions
