Pesticides Registration Principle

Registration process is harmonized to Euro Union 91/414 ECC Directive,
Annex I of the 91/414 ECC Directive

- Recognition Regime- checking dossier by Registering Authority, if the appropriate documentation is introduced to the EC countries - similar to South-East climate zone of Georgia like Bulgaria, Hungary, Romania, Slovakia, Slovenia, Croatia (registration of the same crops and against the same harmful organisms upon the request of an applicant)
- On the basis of the Registering Authority checking dossier and the Scientific-Research Institutes carry out documentary expertise- if the appropriate documentation is introduced to the EU countries and OECD member states on the pesticide registration
- On the basis of the Registering Authority checking dossier and the Scientific-Research Institutes carry out documentary expertise and field examination - if the appropriate documentation is introduced from the countries that doesn't belong neither to EU countries nor the OECD member States.
