National policy towards authorisation of low risk products, basic substances and non-PPPs

CEUREG Forum XXI, Brno 2017

Pavel Minář, ÚKZÚZ, Czech Republic

Obsah

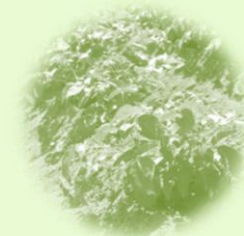

- Low-risk products
- Basic substances
- Non-PPPs (auxiliary products)
- Biological products

Low-risk products

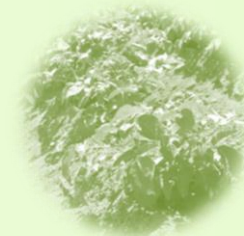

- No specific national policy
- Lower fees
- Discussions on systems of ecological farming and IPM

Basic products

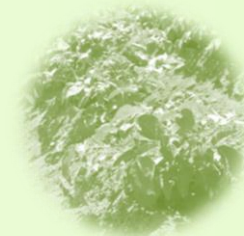

- **Scope of use on internet pages**
- **Discussions on inspection work**
- **Labelling**

Auxiliary products

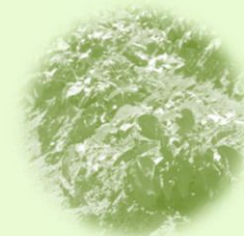

- Amendment of the national law (entry into force 1st December 2017)
- New definition of this group
- Exclusion of some products

Auxiliary products – specific groups

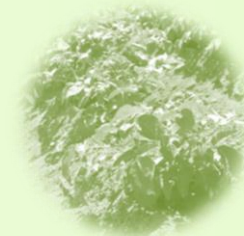

- Products for improvement or a change of the application liquid properties (adjuvants, dyes etc.)
- Products for the protections of wound after cutting trees and grafting
- Pheromones for monitoring of pests
- Plant strengtheners (except PPPs)
- Biological agents (macroorganisms)

Auxiliary products – specific groups

- Products for improvement or a change of the application liquid properties (adjuvants, dyes etc.)
- Products for the protections of wound after cutting trees and grafting
- Pheromones for monitoring of pests
- Plant strengtheners (except PPPs)
- Biological agents (macroorganisms)

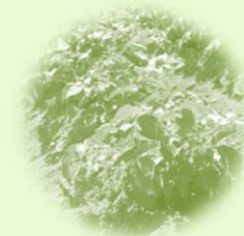

WWW.UKZUZ.CZ

Auxiliary products – data requirements

- Depends on the character of the product:
 - Identity
 - Efficacy data
 - Safety data
 - Classification

Thank you for your attention!
