Regional markets

Collaboration

Between National Food Chain Safety Office (Nébih)
and Customs (NAV) Governmental Offices

Reasons:

- PPP-s in higher volume (Not allowed in EU)
appear's on the local markets
- Fertilizers with lower insufficient active
substance fertilizer gets into the country in
higher quantity

Control: Freight transport

Traffic is directed! Lorries with PPP' can use only BCP Röscke! (Tompä-Kelebia No!)

The Customs sending such vehicles was carrying PPP-s, and Fertilizers to our services to control

My colleagues the inspector's do the checks:

document, identity-, label, and the are checking the usefulness of the active substance in the EU

We require proof from the right holder per e-mail.

Based on a 7/24 ours contact list

Based on risk assessment: sampling

Control: Freight transport II.

We get in touch the Manufacturer or rightsholders, who's controls the shipment in there systems on the basis of BATCH NUMBER, INVOICES, PACKING ID, FOTOS, DOCUMENTS

If it is confirmed, the customs allow entry the consignment

where counterfeiting is suspected, the consignment remains at the Border crossing point, until other measure.

Passenger traffic :can not enter PPP's

The principle of the free movement of goods does not apply to it.

Under the control many people said "*for own consumption*" not for own use, but booth are prohibited too.

If the customs are finding PPP's in the Passenger's baggage, than they confiscate this, and our Border Control Post collected and store it temporary. All quarters of the year, the PPP's will be sent disposal as a hazardous waste.

The passenger pays the cost and the fine.

Results

On freight transport till this time we find just original PPP's shipment's .

Manufacturer, or rights holders they knew about shipment's, and they quickly confirmed the shipment's

The shipments are well documented, 7/24 contacts are available, they respond quickly, maximum 3-4 hour

In Csongrád county on the local markets smuggled PPP's are barely available, not available all local markets. The prices have risen.
