**To all participants of the CEUREG  
Forum**

Dear CEUREG Forum 2020 applicants,

We would like to inform you that we have made a decision to postpone the XXIV Ceureg Forum, which was scheduled in October 2020.

The pandemic prevention measures adopted by individual European countries have made it impossible to organise the event in the manner we imagine it should be. The travelling restrictions and social distancing measures will not allow the proper organisation of and participation at the event.

The conference is not cancelled but postponed to October 2021. We will announce the new dates at the beginning of 2021.

We are looking forward to seeing you in Warsaw in 2021.
